

Glass and Perfume Packaging Catalogue 2025

Perfume Packaging Catalogue

At Centre Packaging, we've meticulously assembled a new product catalogue that focuses on perfume glass and cosmetic jars. This catalogue is specifically tailored to meet the demands of the perfume and cosmetics industry. Our selection of high-quality, aesthetically pleasing perfume bottles and cosmetic jars not only serve as functional containers but also enhance the overall user experience. We understand the importance of packaging in conveying the essence of your brand, and our products are designed to do just that. Explore our catalogue to find the perfect packaging solution for your perfume and cosmetic products.

CENTRE PACKAGING

Glass Packaging

Glass Packaging

Thanks to our manufacturers diverse manufacturing techniques, including in-house processes like matting and sandblasting, as well as partial methods like single and multiple color spraying, metallization, lasering, pad printing, silkscreen printing, embossing, and gluing, Centre Packaging can provide each product with a flawless finish. The most recent innovation for Centre Packaging to offer our customers is laser engraving. Explore the wide range of refinement options in our presentation by examining a specific product from our glass collection.

THE PERFECT FINISH FOR EACH PRODUCT.

What we can offer

Screen Printing:

This involves applying ink directly onto the surface of the bottle.

UV Printing:

A method that uses ultraviolet light to dry or cure ink as it is printed.

Lacquering:

This involves coating the bottle with a clear or colored lacquer.

Metalization:

This process gives the bottle a metallic finish.

Inside Printing:

A technique where the interior of the bottle is printed.

Accessories Gluing:

This involves attaching decorative elements to the bottle.

Velvet Coating:

This gives the bottle a soft, velvety texture.

Metal Plates:

These can be attached to the bottle for a luxurious feel.

Engravings:

Unique engravings can be made on the bottle for a personal touch.

Color Choices:

The bottle can be customized with different color choices.

Ornate Embellishments:

Decorative elements can be added to enhance the bottle's appearance.
